INVESTING IN THE INFRASTRUCTURE FOR TOMORROW
A firm commitment to sustainability in all of its dimensions—economic, financial, social and environmental

Green Infrastructure
绿色基础设施
Promoting green infrastructure and supporting members to meet their local and national environmental and development goals, especially their commitments under the Paris Agreement and the United Nations’ Sustainable Development Goals.

Connectivity and Regional Cooperation
互联互通与区域合作
Facilitating better transport, digital, energy and water connectivity within Asia and between Asia and the rest of the world. It will also support projects that facilitate trade, cross-border investment, tourism, financial and digital integration across Asian economies and beyond.

Technology-enabled Infrastructure
技术推动基础设施建设
Based on the enhanced recognition of the important role technology plays, AIIB will support projects where the application of technology delivers better value, quality, productivity, efficiency, resilience, sustainability, inclusion, transparency and better governance along the project cycle.

Private Capital Mobilization
带动社会资本
To support projects that directly or indirectly mobilize private financing into sectors within AIIB’s mandate. Includes developing infrastructure as an asset class in Asia.
